iKidsU™ is the safe, innovative after-school care program that will inspire your kid to thrive.

April 24, 2023

Dear iKids U Magnolia Families,

Thank you for making the 2022-2023 school year a huge success! We have absolutely loved our partnership with Magnolia Montessori and the entire school community. It's hard to believe that we have already reached this school year's final weeks.

We are already hard at work on our curriculum and scheduling for the upcoming 2023-2024 school year! We have heard your valuable feedback, and we are excited to announce some big improvements to our program offerings for your kids and you. This decision was made after reflecting on the reality that ALL our students can benefit from and deserve the opportunity to partake in these unique learning activities.

Our core iKids Stay & Play programming will now feature a sampler of our most popular enrichment courses, all at no extra cost to YOU! This new and improved afterschool program will have infused aspects of our science, art, theatre, dance, and language curriculums built into the day-to-day activities, as opposed to being offered as separate enrichments. We have been listening to our families and the administration at Magnolia to create a superior program that seamlessly integrates enriching learning experiences and activates multiple modes of learning for your children. We believe the improvements will be even more engaging for students, while mitigating behavioral challenges, and will further compliment what the students are learning during the regular school day. In a word, we trust you'll find this new approach provides greater value for your family, at a reduced cost, when it comes to high-quality educational aftercare.

Our new inclusive programming approach with integrated enrichments will be at a minimally higher cost than last year's core Stay & Play programming, (no extra fees for enrichment our most popular enrichments)! As such, we're confident you'll not find a more valuable, comprehensive afterschool program that can reach every child, as is our mission at iKids University!

Please know, we're always committed to providing the highest-level care and want to ensure we keep our 12:1 one-student-to-staff ratio with minimal increases in cost to our families. This year, we're extending Stay & Play with bundled enrichment options for all students at just a 6% increase in cost, despite absorbing the 18-25% increase in staffing and supply costs year over year, in order to provide the most economical programming to our Magnolia families.

Please visit our website at www.iKidsU.com for additional information and registration options today. Our spaces fill up quickly, so ensure you reserve your spot for the upcoming school year! We can't wait to welcome your child (back!) to our iKids U program!

Warm regards,

Geraldine Smythe
